"Hold Your Horses" HSCC

Scavenger Hunt

Origin: 19th century America; what a passenger would tell a carriage driver who was letting the horses go too fast

There were many stagecoaches, wagons and horses in the 19th century. Let's go on a scavenger hunt and see how many hitching posts and permanent wagon steps you can find. Go on a family ride and visit the town listed to see if you can find the hitching post to tie up your horse or steps to assist women and children into a wagon. Write down the location when you find one.
